Consultation and Community Interactions	Kiera Plumridge – No complaints, enquiries or communications received or transmitted within the most recent reporting periods. Luke Ridley - notes the helicopter lift for Lot 1B as noted in first agency meeting in this section for community info, with information being provided.
Stakeholder Feedback and Questions	RC wanted an update on water storage in light of the 3 days of heavy rain forecasted. KD directs to CV. Carl Vincent - notes that site has acknowledged the rain and all contractors are aware. All basins have been dewatered and notes most basins have extra capacity and are very unlikely to overflow, until at least 30 mL plus of rainfall. Other controls also in place and notes site should be secure with current provisions. If extended rain event, erosion is most likely impact, but catchments are appropriate in current form.
Meeting Closed 12:15 PM
