Office	180.9
Total building area	792.9

We aim to be leaders in environment, social and governance – with a long-term, sustainable approach that leads to positive economic, environmental and social outcomes for our business, our stakeholders and the world more broadly.

Here’s a snapshot of some of our initiatives across our Australian portfolio.

**Carbon neutral organisation**

Goodman proactively monitors the carbon footprint under our operational control. We purchase 100% renewable electricity and offset residual emissions with high quality carbon offsets to achieve carbon neutral in operations certification via Climate Active.

**Climate resilience**

Goodman has several control measures in place to future-proof our portfolio, keep our customers safe, and mitigate against the risks of climate change. These measures include installation of solar PV, inspections of structure and façade, roof audits, landscape maintenance and potable water monitoring.

**Solar**

We have installed over 66MW of rooftop solar on more than 200 of our buildings in Australia. That’s more than 200,000 solar panels – enough to power 15,700 homes, or the equivalent of taking 34,000 passenger vehicles off the road.

**LED lighting and motion sensors**

100% of the portfolio has LED lighting and motion sensors. This will support energy efficient operations, and provides optimum lighting comfort for our customers.

**Electric vehicle charging**

We recognise our role in preparing our estates, our people, and our customers for a zero emissions future. We’re supporting the switch to EVs by transitioning our own fleet and encouraging our people to purchase EVs, providing dedicated EV bays and charge points at all new developments, and collaborating with our customers on their electric vehicle requirements.

**Building certifications**

Goodman is targeting 5 star Green Star Buildings rating on all new warehouse developments. This third-party certification demonstrates best practice in environmentally sustainable design.

**Active water monitoring and management**

Goodman have implemented several sustainable landscaping initiatives in an effort to reduce potable water consumption across the portfolio. These include rainwater tanks, smart potable water meters and drought tolerant planting.

Sustainability

# INCLUSION AND DIVERSITY

Central to our purpose of “making space for greatness” is creating an environment where I&D is embedded into everything we do.

We work to create a culture where our people are valued and have the opportunity to realise their potential.

We are all accountable for making it a reality. Our people are champions of openness, fairness and respect.

At Goodman, we lead the way in inclusion and diversity

# FIRST NATIONS ENGAGEMENT

We acknowledge the Aboriginal and Torres Strait Islander Traditional Custodians of the land on which we work and live. We pay respect to Elders past, present and emerging. We value their custodianship of over 65,000 years.

Artist Danielle Mate with her artwork created for Goodman's Reflect RAP.

As a business that works across many locations, we have a responsibility to listen, learn and walk alongside First Nations peoples to ensure our activities support the continuing of connection to their land, waters, cultures, languages and traditions.

Goodman received formal endorsement of our Reflect RAP. We have clear commitments around the core pillars of relationships, respect and opportunities.

Our RAP journey is ongoing, and we're determined to make a difference.

# GOODMAN FOUNDATION

The Goodman Foundation unites our people, properties and resources to make a tangible difference to the lives of people in our communities. Through our partnerships with an exceptional – and often grassroots – group of charities, we’re able to make a real difference, where and when it matters most.

## How we do good in the world

The Goodman Foundation offers support to charities within three key areas:

### Children and youth

Charity organisations who help protect, nurture and support children or young people.

### Food rescue and environment

Charity organisations who reduce waste and support those in need by redistributing fresh food or useful items that would otherwise go to landfill.

### Community and community health

Charity organisations who support those living with a condition, illness or disability, or whose efforts help to create a more inclusive and equitable community.
